ELEVATE THE CUSTOMER EXPERIENCE WITH BETTER ON-SITE DIGITAL RADIO COMMUNICATIONS

In today's fast paced environment, being able to communicate with all employees instantly is essential in providing excellent customer service. With the DLR Digital Radio, collaboration has never been easier.

- Clear, reliable communications up to 300K square feet
- Interference free, private communications
- License free, hassle free

KEEP YOUR COMMUNICATIONS PRIVATE WITHOUT COMPETITIVE INTERFERENCE

These digital, 900 MHz, license free radios leverage frequency hopping technology. This technology enables the radio to continually change frequencies, making it virtually impossible for others to listen to your private conversations.

Enhance your radio fleet privacy by simply setting a unique 4 digit Profile ID number. This differentiates your radio system, setting it apart from other business radios and thus providing private and interference free communications.

EASILY TAILORED TO MEET THE DEMANDS OF YOUR ORGANIZATION

Easily change your preconfigured top button and customize your radio to adapt to your specific organizational requirements. Programmable button features include:

- Private Reply
- Direct Call
- Page All Available
- Page All Call Available
- Instant Mute

DLR RADIO INCLUDES:

- 14 hour Lithium Ion Battery
- Single Unit Charging Tray and Adapter
- Swivel Belt Holster
- User Manual
