## THE DTR SERIES DELIVERS:

- Greater in-building coverage
- Loud, clear audio right up to the edge of coverage
- Talk one to one, in groups or with specific users.
- FHSS hopping for true privacy
- No fees, contracts, service towers or license needed
- Private Reply for one to one communications
- Rugged durability
- Slim profile

Rugged and reliable, DTR Series radios undergo rigorous testing in the design process using U.S. Military 810 C, D, E and F Standards—so you can rest assured it will hold up under demanding conditions.

**Blowing Rain:** Steady rainfall and wind for 30 minutes on every surface

**Salt Fog:** 48 hours of exposure

**Vibration:** Up to nine hours of exposure to vibration that simulates the rigors that a radio could undergo while being carried or transported

**Blowing Dust:** Six hours of blowing dust on all surfaces

**Shock:** 18 shocks with a minimum G force of 40 G each

**Temperature Storage:** Multiple hours of exposure to storage temperatures as low as -67° F and as high as 160° F

DIGITAL ONSITE TWO-WAY RADIOS

 **MOTOROLA SOLUTIONS**

# TRANSFORM YOUR TEAMS WITH DIGITAL

How can you communicate easily, share information instantly and keep your people working efficiently? Whether you're a hotel coordinating special events or a school district dispatching maintenance, the answer is Motorola DTR Series radios. Our digital, two-way portable radios are the perfect business partner – with enhanced in-building coverage, loud, clear audio and no monthly fees, they deliver all the benefits of digital at an exceptional value.

## TALK FURTHER AND HEAR CLEARER

What do our DTR Series radios offer that make them ideal for your operation? How about flexibility, so you can call a single radio, a group, or specific members of a group? Or digital audio quality that stays loud and clear everywhere there's coverage.

## CALL ONE OR MANY, PUBLIC OR PRIVATE

The DTR series is equipped with call options that accommodate the unique needs of different business operations.

**Private Reply** allows users to instantly communicate one to one privately after a group transmission is over.

**Call All Available** is a group transmission across all channels, to all radios that are not engaged on a call. All replies are heard by the entire group.

**Page All Available** is a one-way group announcement across all channels, to all radios that are not engaged on a call. Any replies are private.

**Direct Call** allows users to easily reach a specific individual, enabling instant communication.

**Rugged, Slim Durability** — The IP54 rating and Military 810 C, D, E and F Standards ensure that this slim lightweight radio can stand up to heavy duty jobs.

**Transmit ID** — Receiving radios display the radio ID of the transmitting unit and, if listed in your contact list, the unit's radio name.

**Scroll List** — View the quick access list of most used contacts accessible via the up/down arrow on the keypad.

**Digital Audio Quality** — Stays loud and clear everywhere you have coverage.

**Enhanced Coverage** — up to 350,000 square feet or 30 floors.

**Extended Battery Life** — Get up to 19 hours of battery life with the extended capacity battery available as an accessory.

**Digital One-to-One Private Calling** — allows private communications with a specific user. The recipient receives an alert - either audible or vibrating - and their radio displays the caller's ID.

**Digital One-to-Many Group Calling** — enables public group calls. All other DTR Series radios on the same group ID and channel can hear communications.
